3. What Personal Data We Collect

3.1 Data you provide directly

When registering and using the App, you provide us with:

- Identity data: full name, username (@username), email address

- User-generated content: goals, habits, projects, tasks, comments, public commitments

3.2 Payment data

To enable the financial stakes feature, payment data is processed through our payment service provider, Stripe. Your actual card number, expiry date, and CVV are never stored in our systems — Stripe provides us only with a secure payment method reference token. Stripe holds PCI DSS Level 1 certification.

- Performance data: crash reports and error logs, response times
- IP address when communicating with our servers

3.4 Data from third parties

If you use the Google Calendar Sync feature (Premium), we obtain access to your Google Calendar service to the extent you explicitly approve when connecting your account. This data is used solely to synchronise your goals and tasks and is not shared with any third parties.

4. Purposes and Legal Bases for Processing

We process your personal data for the purposes listed below, each based on the appropriate legal ground under Article 6 of the GDPR:

5. Recipients of Personal Data and Third Parties

We do not sell your personal data to third parties. We share it only in the cases described below and strictly to the extent necessary:

5.1 Stripe (payment gateway)

When you activate financial stakes, your payment data is processed by Stripe Payments Europe, Ltd., headquartered in Ireland, acting as an independent controller of payment data. Processing is governed by Stripe's own terms and its PCI DSS Level 1 certification. Learn more: <https://stripe.com/privacy>

5.2 Google Firebase

The App uses Google Firebase infrastructure (Google LLC, USA) for backend services including user authentication, database (Firestore), cloud storage, and push notifications (Firebase Cloud Messaging). Data transfers outside the EEA are conducted on the basis of Standard Contractual Clauses approved by the European Commission. Learn more: <https://firebase.google.com/support/privacy>

5.3 Google Analytics / Firebase Analytics

We use Google Analytics for Firebase to analyse App usage. Collected data is anonymised and used exclusively to improve the App. Detailed profiles for targeted advertising purposes are not created. Learn more: <https://policies.google.com/privacy>

5.4 Accountability partners

If you explicitly add an accountability partner within the App, that partner may view your progress and results to the extent you define when setting up the partnership (see the Partners section in the App). This shared access is part of the App's core functionality and requires your explicit consent.

5.5 Public authorities

Where required by law, or where necessary to protect our rights or the rights of third parties, we may disclose your data to public authorities or courts.

6. International Transfers of Personal Data

Some of the recipients listed above (in particular Google LLC) are located or process data in the United States or other countries outside the European Economic Area (EEA). Transfers of data to such countries are carried out on the basis of:

- Standard Contractual Clauses (SCCs) approved by the European Commission
- European Commission adequacy decisions (where applicable)

We take all reasonable technical and organisational measures to ensure an adequate level of protection for your personal data.

7. Data Retention

We retain your personal data for as long as necessary to fulfil the purposes set out in this Policy, or for as long as required by applicable law:

- Account data (profile, goals, habits, projects, tasks): for the duration of your account + 30 days after deletion to allow reversal of the decision

Under the conditions set out by law, you have the right to request a restriction on the processing of your personal data.

8.5 Right to data portability (Art. 20 GDPR)

8.6 Right to object (Art. 21 GDPR)

You have the right to object to the processing of your personal data carried out on the basis of legitimate interests, including profiling. In such cases, we will cease processing your data unless we can demonstrate compelling legitimate grounds for processing that override your interests.

8.7 Right to withdraw consent (Art. 7(3) GDPR)

Where processing is based on your consent, you may withdraw that consent at any time without affecting the lawfulness of processing carried out before withdrawal. Consent to marketing notifications can be withdrawn in Notification Settings in the App or by sending an email to skinngit@gmail.com.

8.8 How to exercise your rights

You can exercise your rights by:

- Email: skinngit@gmail.com

If you believe that the processing of your personal data is in breach of the GDPR or other applicable legislation, you have the right to lodge a complaint with the competent supervisory authority. As we are established in the Czech Republic, the relevant authority is:

- Encryption of data in transit via TLS/HTTPS protocol
- Secure data storage within Google Firebase infrastructure
- Access to personal data is restricted to individuals who strictly need it
- Payment data is processed exclusively through Stripe's certified gateway (PCI DSS Level 1)
- Regular review and updating of security measures

Nevertheless, no system for transmitting or storing data over the internet is completely secure. If you believe your interaction with us is no longer secure, please contact us immediately at skinngit@gmail.com.

10. Age Restriction

The Skinngit App is intended exclusively for individuals aged 16 and over. We do not knowingly collect personal data from children under the age of 16. If we discover that we have inadvertently collected personal data from a child under 16, we will delete it without delay.

If you are a parent or legal guardian and believe that your child under 16 has provided us with personal data, please contact us at skinngit@gmail.com.

11. Cookies and Similar Technologies

The Skinngit mobile app does not use web cookies. However, we use similar technologies specific to the mobile environment:

- Firebase Instance ID: an anonymous device identifier used for delivering push notifications and analytics
- Device local storage: used to store app settings and session data to provide a better user experience

This data is not used for advertising profiling and is not shared with advertisers.

12. Public Profiles and Public Commitments

If you set up a public profile or publish a Public Commitment, that information is visible to other users of the App. This includes:

- Your username (@username) and any profile information you choose to make public
- Your public commitments and their outcomes (Success Board / Shame Board)
- Your statistics and rankings in leaderboards (if you participate in them)

You can adjust the visibility of your profile and commitments at any time in the App settings. Your real name is not displayed in the public areas of the App unless you choose to include it yourself.
